Subject: COVID Airborne Transmission Alliance - Open Letter to Lady Hallett on Module 3

Dear Lady Hallett,
First, on behalf of CATA's members, may we extend our thanks to you and the Inquiry Team as the hearings close. As Core Participants, we certainly appreciated the sheer level of effort and expertise involved in such a mammoth undertaking. We felt, invariably, that the team treated us with courtesy, seriousness and respect and that without the hearing stage of the Inquiry the very important issues about science would not have been accessible or highlighted to the Public.

CATA's Executive was delegated by our member organisations to support the Inquiry process. Since the conclusion of Module 3, we have continued to work through the evidence provided to the Inquiry to identify gaps and inconsistencies in the evidence, with particular relation to scientific decision making and the role of the IPC Cell.

This has been a very intensive process, but we have been able to identify some significant areas where verbal evidence to the Inquiry is inconsistent in material way with evidence, especially evidence that has not been made available to the Inquiry. Using approaches, including Freedom of Information requests, we are able to furnish the Inquiry with additional information and evidence which explains, casts new light, or undermines evidence provided.

While we appreciate the limitations on the Inquiry in time and resources, we hope that our process of seeking missing evidence will assist in enabling the Inquiry to have the fullest picture of critical decisions which, we believe, led to harm and fatalities amongst healthcare workers.

We would be delighted to clarify any issues outstanding and Dr Jones, Mr Osborn and Mrs Gadhok will be at Dorland House for the publication of the Module 3 Report on the 19th.

With thanks,

Kevin

Subject: Re: COVID Airborne Transmission Alliance - Open Letter to Lady Hallett on Module 3

Dear Kevin

Thank you for your correspondence.

As you know, the Module 3 hearings concluded in November 2024 and since then, the Inquiry has been preparing its report setting out the Chair's conclusions and recommendations based on the evidence obtained during the investigation and evidence from the hearing. This report will be published on 19 March 2026. In the circumstances and given that investigation is now complete, we do not seek any further information from CATA at this stage.

Kind regards

[redacted]
